

SEI PROJECT 2

Ų	Node/Express/MongoDB Full-stack CRUD Application		
Stu	ident Name		
	Metro		
	All criteria are minimum requirments and all must be met in	order to pass.	Link to Project 2 Requirements
Dlannii	ing & Presentation Requirements	Local Inst:	
r Idililii	ing & Fresentation Requirements	Local Ilist.	
Planning	g	Complete?	Comments (optional)
	A "public" Trello board used for the project's planning		
	"Ice Box", "Current/MVP" & "Completed" Trello lists for holding User Story c	ards	
	User stories follow the "As a <user role="">, I want <feature>, because <reason (<ul="">(reason> is optional if it's blatently obvious) </reason></feature></user>	>" format	
	Trello contains a "Wireframes" list with wireframes for the app's main function	onality	
	Trello contains an "ERD" list with an Entity-Relationship-Diagram for the approach	's data	
Dunnant		Complete 3	
Presenta	Project introduced by paraphrasing the README	Complete?	
	Deployed app launched by clicking the link in the README		
	Signed up a new user, then immediately logged out		
	App's features demonstrated using the "preferred" user		
	Demonstrated full-CRUD		
	Showed the code for the "main" Mongoose Model, its controller & favorite E	JS template	
	Shared their key learnings/takeaways		
Project A	Assessment		
	Project assessment passed		
Techni	ical Requirements	Global Inst:	
		Complete?	Comments (optional)
